
Lenka Muroňová

Are you wondering what you are really good at, what comes naturally to you, and what you can build on? Would you like to get to know your strengths better and use them more consciously in your studies, at work, or when deciding which direction to take next?

Come for a strengths consultation. You can choose from two options:

Gallup CliftonStrengths 34 Assessment + Individual Consultation The most comprehensive option based on the online Gallup CliftonStrengths 34 assessment

After completing the assessment, you will receive a complete talent profile – all 34 CliftonStrengths talent themes ranked from your strongest to less prominent. This gives you a comprehensive overview of your talents and helps you better understand what comes naturally to you and what you can build on.

During the individual consultation, we will work with your overall talent profile and focus primarily on your strongest talents, the connections between them, and ways to use them in your studies, at work, or when making decisions about your further academic or career direction.

Price: CZK 2,500

Gallup CliftonStrengths TOP 5 Assessment + Individual Consultation An option based on the online Gallup CliftonStrengths TOP 5 assessment

After completing the assessment, you will receive a talent profile covering your five strongest CliftonStrengths talent themes. Unlike CliftonStrengths 34, this option does not provide a complete talent profile but focuses only on your TOP 5 talents.

During the individual consultation, we will focus on your five strongest talents, the connections between them, and ways to use them in your studies, at work, or when making decisions about your further academic or career direction.

Price: CZK 1,600

Consultations are available in both **Czech and English**.

? I am interested in a career and personality assessment
