
About Us

Career centres (CCs) are a standard part of modern global universities, whose priority is the career development of students and graduates. Charles University is no exception. Why are CCs important? For several reasons: they support students in transitioning to the job market, act as a point of entry for employers, mediate trends in the job market, serve as intermediaries between students, employers, and the university, and last but not least, ensure a positive external representation of students.
